SUMMARY

Computer Science Engineer (AI Specialization) focused on building scalable, AI-integrated full-stack web apps. Strong foundation in problem-solving backed by qualifying GATE CS, a Top 4% global rank in TCS CodeVita, and 500+ DSA problems solved.

EDUCATION

B.Tech (CS-AI), Pranveer Singh Institute of Technology (2022–2026)
CGPA: 8.2 (Till Seventh Sem)

Relevant Coursework: DBMS, Data Structures and Algorithms, OOPs

Intermediate (12th), B.L.M Inter College, Kanpur (2020–2021)
Percentage: 85.4%

SKILLS

Languages	C++, Java, Python, SQL
Web Technologies	React.js, Node.js, Express.js, Microservices, REST APIs, HTML5, CSS3
Databases	MongoDB (Mongoose), MySQL
AI / ML	NumPy, Pandas, Scikit-learn, TensorFlow, Matplotlib
DevOps & Tools	Docker, AWS (EC2, S3), Git, GitHub, Cursor, GitHub Copilot
Soft Skills	Teamwork, Adaptability, Problem-solving

PROJECTS

ScrapSmart(Waste Recycle System) (Team)  (06/2025 – Present)

- Designed **Microservices** connecting **React+Vite** frontend with decoupled **Python AI** services.
- Trained **MobileNetV2** model for waste classification with **90% accuracy** deployed on **Flask**.
- Built **Recommendation Engine** generating dynamic **DIY reuse guides** for classified waste.
- Enabled real-time data exchange between Node.js and AI services via **REST APIs**.
- Tech Stack:** React.js, Node.js (Auth Service), Flask (AI Service), TensorFlow, Keras.

Video Wall (Individual)   (06/2024 – 03/2025)

- Developed a scalable full-stack video hosting platform supporting uploads, subscriptions, and interactions.
- Designed **RESTful APIs** using Node.js and Express.js for high-frequency client requests.
- Integrated Cloudinary CDN for optimized media delivery and reduced load times.
- Implemented secure **JWT-based authentication** with access and refresh tokens.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Cloudinary, Axios, Postman.

Medwise (Healthcare Web App) (Team)   (09/2023 – 06/2024)

- Integrated **HTML/Bootstrap** frontend with **15+ APIs**, achieving **sub-200ms latency**.
- Designed indexed **MongoDB** schemas, reducing query time by **40%** for patient records.
- Secured **500+ user records** via **JWT** and **Bcrypt**, ensuring strict access control.
- Tech Stack:** Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, Bootstrap.

CERTIFICATES

- 160 Days of DSA – GeeksforGeeks
- Supervised Machine Learning** – Coursera (Stanford University)
- C Programming – NPTEL (Excellent Grade)

ACHIEVEMENTS

- Solved 500+ coding problems on LeetCode
- Global Rank 3894** in **TCS CodeVita Season 13** (Round 2 qualifier) among 100k+ participants.
- Top 25 Finalist** – QubitX Hackathon (400+ teams)
- GATE 2026:** Qualified in CS with a score of **431**, demonstrating strong core engineering fundamentals at a national level.
